Nails

A Nail Enhancement is where the Nail is extended using a Tip and then product is applied over the top. The Tips come in a range of finishes from Natural, French, Coloured or Glitter. The product used over the Enhancement can either be Acrylic or Gel. Gel is a more flexible product, so Acrylic tends to be more popular. Also, Acrylic is much easier to remove as it can be soaked off using Acetone. Gel used over a Nail Enhancement has to be buffed off.

Natural Overlays are suited for those who just want a bit of added strength to their own nails. The product is placed directly onto the Nail so does not provide extra length. However, you will find that in a very short time you will achieve ten nails of equal length and shape. Overlays need to be Infilled every two weeks, in the same way that Nail Enhancements do. Again, Overlays can be done in either Acrylic or Gel.

Weekenders are great for the younger clients, or for those with a smaller budget. A Tip is applied to give extra length, but product is not applied over the top, thus offering a shorter term solution and does not need to be Infilled.

Gel Polish

A Gel Polish is a Gel that can be soaked off using Acetone, however it should be applied and removed by a Nail Technician. It comes in a range of colours, or can be done in a French finish and lasts for 2-3 weeks. It is great for those who are tired of Nail Polish not lasting.

Minx

Minx is a Nail Wrap that is adhesive on one side and comes in a range of colours and patterns. The Minx is heated up with a special Lamp and is cut and shaped and stretched over the nail. It is recommended for use on the Toes only.

Nail Art

Totally Divine offers a huge array of Nail Art Designs, mostly done by Freehand. However, also on offer are a vast range of Decals and Gems. The Website and Facebook contain a vast gallery of photos.

Lashes

LASH-IS Semi-Permanent Eyelash Extensions are an amazing treatment that gives women fuller, longer, gorgeous lashes that can be tailored to the look they wish to achieve. Mascara is no longer needed, making eyelash extensions perfect for holidays, weddings, special occasions or everyday wear due to the range of length, thickness, curl and volume available.

Unlike traditional strip or cluster lashes, each individual lash extension is adhered to your own single lash to create a clean, natural finish. The glue is invisible and you won't even be able to feel them.

The Appeal Effect

The Appeal Effect is a revolutionary new way to lift and perm the natural eyelash. The process lifts and shapes the lash to create a wonderful wide-eyed look as well as making the lashes look longer and thicker.

Tanning

Totally Divine offers Spray Tans using Famous Dave (www.famousdave.co.uk). Famous Dave is commanding huge press attention and has won many awards for its natural finish. It has little or no smell and does not turn you orange!
